

## Sixth Grade Computers Formatting Problem Set

Open your "Twenty Questions" google document, and make the indicated edits:

- Bold and change the font of what your friends call you.
- Change the font size of your age to twice your age.
- Change the color of what color you wear to that color. If you don't have a color you wear most often, then pick any color.
- Italicize and center your favorite subject.
- Bold and center your favorite fast food.
- Right align your favorite computer activity.
- Color your favorite sports team in team colors and bold it.
- Color and bold your favorite holiday in holiday colors.
- Center and underline your least favorite word/phrase.
- Change font and size of your best friends.
- Right align what you want to be when grow up.
- Bold and color the leaves in the color you wrote.
- Center and bold the sunset/sunrise answer.
- Center and underline the daytime or night answer.
- Right align and color the candy question in a color you like.
- Center and italicize what annoys you and change font and size.
- Bold what you watched lately.
- Color and center the hot and sunny or cold and snowy question in a color you like.
- Format the last three answers any way you want.
- Add a graphic at the bottom that seems appropriate for this assignment.
